

We know that there are people out there who will take advantage of our clients if they have the opportunity. That is why we have developed a glove box auto claim kit for our clients to help them document exactly what happened at an accident scene. This handy kit includes a camera, battery, flashlight, tape measure, pen and paper, whistle and a short list of what information you will want to obtain after an auto accident. Make sure that when you get hit by someone else, they don't change their story the next day.

If you have an auto insurance policy with Clinard Insurance, you are entitled to one of these kits FREE. We can also sell you additional kits at the discounted price of \$10 each.
